

Logan County Economic Development - Health and Safety Measures Recovery Fund

As part of efforts to bring needed resources to the business community of Logan County, the LCEDC has created a fund to assist with the costs of health safety measures and best practices in response to reopening businesses in the community. The critical infrastructure of our small business community is the heart and soul of many long-term and broad economic development strategies. LCEDC wants to help support our small businesses to ensure they can reopen safely and without additional cost burdens.

****All application information will be kept confidential, however, grantees may be disclosed as funds are from a 501 C 3 non-profit organization that receives public funds.****

Business Name: _____ **Date Opened:** _____

Owner Name(s) _____

Physical Address: _____

Narrative:

Please attach a 1 page explanation of what expenses you have had to incur as part of a Covid-19 health and safety requirement or additional cleaning efforts and protocols put in place. These should also detail the type of efforts and items along with costs of each. The committee may require additional information or backup for any expenses being requested.

Date of Purchase	Amount	Explanation of cost/purchase

Funds awarded through this program are not required to be paid back, but by accepting funds the business entity agrees to provide updates and feedback to LCEDC as well as make every effort to repay the funds when they are able. The hope is to create a perpetual fund for business assistance through good faith and support.
